

DK A-30 DTF Printer Installation Manual

Disclaimer

This installation procedure, using Hanrun Paper DK A-30 0.3-meter XP600 single-head four-color DTF printing machine as an example, will illustrate how to quickly assemble the printer. If your machine differs in width and type or number of print heads, you can still use this as a reference.

Note: This manual is provided for reference during the assembly process. It is recommended to have experienced professionals carry out the assembly operation!
